Dear Mr. Lester Snow,

As a Bay Area resident I firmly believe that conservation is the real solution to our bay delta problems.

Please implement measures which do not include more canals, storage reservoirs, dredging or water diversion.

Instead please stop making taxpayers foots so much of the water bill for large corporate farms. I support a solution that promotes water saving programs on our farms and in our cities.

**The only sustainable way to replenish the Bay Delta is to use less water!**

Thank you for your time.

Sincerely,

  
Rebecca Stow
